Methlesh Kumar

DevOps Engineer

Email: mithleshsingh51438@gmail.com Phone No: +91-9505592694

https://www.linkedin.com/in/methlesh-kumar-356887194/

OBJECTIVE

Aspiring DevOps Engineer with hands-on experience in CI/CD pipelines, Docker, Terraform, and cloud platforms (AWS & Azure). Seeking to contribute to scalable infrastructure and automation in a growth-oriented organization.

EDUCATION

Degree/Course	Institution	Board / University	Year of pass	CGPA / Percentage
B.Tech in Computer Science & Engineering	Malla Reddy Institute of Engineering & Technology	Jawaharlal Nehru Technological University Hyderabad	2025	7.45 CGPA
Diploma in Computer Engineering	TRR College of Engineering	State Board of Technical Education and Training (SBTET), Telangana	2019	70.12 %
Class X	Nagarjuna High School	Telangana Secondary School Certificate	2015	7.8 CGPA

SKILLS

- CI/CD Tools: Jenkins, GitHub Actions, Argo CD
- Containerization: Docker
- Orchestration: Kubernetes (Basics)
- Infrastructure as Code: Terraform
- Cloud Platforms: AWS, Azure (Basics)
- Monitoring: Prometheus, Grafana
- Scripting: Bash, Basic Python
- Version Control: Git, GitHub
- Security Tools: SonarQube, OWASP, Trivy

• Configuration Management: Ansible (Basics)
• Operating Systems: Linux (Ubuntu), Windows

PROFILE SUMMARY

- Familiar with Azure services including Virtual Machines, Storage Accounts, and basic networking concepts.
- Hands-on experience with AWS, Azure services: EC2, S3, IAM, AMI, ASG, Load Balancer, EFS, CloudWatch, CloudTrail, and DNS/Route53.
- Experience in the DevOps area involving CI/CD implementations from code compilation to containerized deployment.
- Built CI pipelines in Jenkins integrated with GitHub to perform automated builds, testing, and container image creation.
- Implemented security and quality checks using SonarQube, OWASP, and Trivy in the CI pipeline.
- Containerized applications using Docker and managed images on Docker Hub for deployment.
- Automated Continuous Deployment (CD) using Argo CD.
- Monitored system and cluster performance using Prometheus and Grafana with Node Exporter.
- Good knowledge on working with Git version control: repositories, commits, pull requests.
- Basic scripting knowledge in Bash/Python for automation tasks.
- Eager to learn and grow in DevOps practices under guidance.

PROJECT

PROJECT: Microservices Deployment on AWS

Tools: Terraform, Jenkins, Docker, Kubernetes, Argo CD, Prometheus, Grafana, SonarQube, OWASP, Trivy, Git, GitHub, AWS.

Roles & Responsibilities:

- Built CI pipelines in Jenkins integrated with GitHub to perform automated builds, testing, and container image creation.
- Implemented security and quality checks using SonarQube, OWASP dependency check, and Trivy image scanning in the CI pipeline.
- Containerized applications using Docker; built and pushed images to Docker Hub registry.
- Assisted in Continuous Deployment (CD) using Argo CD in GitOps workflow.
- Monitored system performance, cluster health, and application metrics using Prometheus and Grafana dashboards.

STRENGTHS

- Good Communication
- Self-Motivated
- Time Management
- Troubleshooting
- Fast Learner
- Adaptability & Flexibility

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge and I bear the responsibility for the correctness of the above-mentioned particulars.
